M. WITTE HEADS **RUSSIAN MISSION**

Czar Nicholas Signs His Appointment as Chief Peace Plenipotentiary.

WAS SIGNED AFTER MIDNICHT.

He May be Regarded as the Leading Liberal Statesman of the Empire.

A FUNNY THING ABOUT MURAVIEFF

It is Said He Declined Because He Was Not Allowed Enough Money to Cover His Expenses.

St. Petersburg, July 13, 12:55 p. m .-Emperor Nicholas has signed the appointment of M. Witte, president of the committee of ministers, to be chic plenipotentiary representing the Rus sian government in the peace negotiations to be conducted next month in the United States. The appointment, which was signed after midnight, lothes M. Witte with plenary powers.

Official notification of the designation of M. Witte to head the mission was forwarded to Washington this morning. M. Witte will take passage on the North German Lloyd steamer Kaiser Wilhelm der Grosse, which sails from Cherbourg July 26.

Sergius Witte, the Russian plenipotentiary, may be regarded as the leading liberal statesman of Russia. For the last 13 years he has been one of the strongest personalties in the Russian bureaueracy, although his political fortunes suffered a set-back when he was compelled to resign the pertfolio of minister of finance in August, 1903, and again when, after being appointed president of the council of ministers in the same month, his office gradually lost its importance until rumors of his intention to resign and go abroad had been persistently circulated.

Witte is about 56 years old, and has steadily worked his way up from the position of an underpuid railroad clerk who occasionally acted as porter to that of the leading statesman of Russia, in spite of the fact that his enemies are numerous and include some of the most powerful men in Russia. A man of large stature, big limbed and anuscular, standing over six feet high. Witte has the reputation of being harsh to his subordinates, but his honesty and abfilty have never been doubted even by his worst enemies. He was created a count in 1901.

M. Witte is thoroughly familiar with Sergius Witte, the Russian plenipos

doubted even by his worst enemies. He was created a count in 1901.

M. Witte is thoroughly familiar with the far eastern question in all its be rings. He understands the Japanese position and fully realized before the war that an aggressive policy being pursued under the lead of Vicercy Alexieff and M. Bezobrazeff, president of the Yalu Timber company, and the coterie of adventurers' connected with them would drive Japan to take up the sword. At one time Witte talked over the situation with the Marquis Ito, president of the Japanes privy council, and one of the leading statesmen of Japan. Practically it was Witte's disapproval of Russia's far eastern policy on the creation of a vicercyalty in the far east which caused his downfall as minister of finance.

WHY MURAVIEFF DECLINED.

WHY MURAVIEFF DECLINED. Paris, July 13.—The St. Petersburg correspondent of the Echo de Paris states that the declination of M. Muravieff to head the Russian peace mission was based partly on the state of his health and partly on the fact that his allowance for expenses to cover the record of his section. period of his sojourn in America was only 15,000 roubles, which amount he considered insufficient owing to the great cost of living in the United

Witte twice refused to become M. Witte twice refused to become the successor of Muravieff on the mission on the ground that he did not wish to be a mere figurehead in the transmission to Emperor Nicholas of the peace terms offered by Japan. His selection therefore cannot but be taken to from the const on Tuesday and last evening there were between 250 and 300 to mean that the emperor has yielded to his insistnee that real powers pleni-potentiary be conferred upon Russia's principal representative on the peace

PRESIDENT IS ADVISED.

Oyster Bay, N. Y., July 13.—President Roosevelt received from the Associated Press the first definite news of the declination of M. Muravieff to act as the principal plenipotentiary of Russia n the conference and of the designation by the Russian emperor of M. Witte is the leading Russian envoy. Official notification of M. Witte's appointment has not reached the president from Petersburg, although it may come at any time.

Unofficially the designation of M. Witte is regarded as most propitious. It is believed that his appointment is an assurance that peace in the far east is now in sight.

SHUVALOFF'S ASSASSIN IMPORTANT POLITICAL CATCH

Moscow, July 13.—The authorities here decline to disclose the identity of the assassin of Prafect of Police Shuvaloff last Tuesday, but it is known that a very prominent and important political capture has been made. After the prisoner's escape from the police station where he had been confined as a political suspect some days previous to the assassination of the prefect, Shuvaloff set all the police of Moscow at work to effect his recapture. The prisoner in the meantime shaved off his head and while the police were searching for him everywhere the man went to the prefect's office and committed the crime for which he will now he tried. The builets of the revolver used by the prisoner were filled with poison. The crowd in the ante-room of the prefecture, set upon the assassin who was dragged into the street and terribly beaten. St. Petersburg, July 13.—Official ad-vices received by the minister of the in-terior this afternoon say that the as-sassin of Prefect of Police Shavaloff of Moscow has been identified as a former school teacher of St. Petersburg named illkovsky, who is netively connected the the political agitation and is beed to have belonged to the terror-organization. He was first arrested for the administration of the late terior Minister Sipiaguine in 1901, and three years later was exiled to Siberia for six years by the late Interior Minlater Von Piehve, but escaped in 1904 and was supposed to have been abroad. Kulikovsky was next discovered at Moscow in June last, prowling around the government buildings presumably intent on committing a political crime. He was arrested and taken to a police station, from which he escaped. Upon his escape Shuvalon offered a reward for his capture.

Syracuse, N. Y., July 13.-State Insurance Supt. Hendricks today was asked as to why reference to the Depew Improvement company and its exorbitant loan from the Equitable Life. Assurance society was not contained in the preliminary report of his investigation of the society's affairs. Mr.

"That was ancient history. We had gone into that before. We told them (the society) to call the loan. We marked the valuation of the property down to \$150,000. They kicked on that, and we told them that if we made any change it would be less. They then foreclosed the mortgage on the proper-ty, bid it in for \$50,000, and they have

Mr. Hendricks also replied to the comment of Atty, Jerome of New York, who had said it was funny that the newspapers could get a copy of the evidence taken in the Equitable investigation when he (the district attorney) could not. Mr. Hendricks said: "If Jerome wanted a copy of the tes-timony wby did not be ask for it? He has never asked for a copy of the tes-timony, not at least from me, neither at the New York office or the Albany office of the department. If he has ever asked for it we have never received

It is understood that a copy of the testimony was sent to the New York office of the department to be ready for Mr. Jerome if he asked for it.

INTENDING SETTLERS.

Hundreds in Scattle Waiting for Opening of Land District.

Scattle, Wash., July 13 .- Three hundred Intending settlers are in the city to file on land contained in a district thrown open for settlement today north

registered at the local hotels.

The land upon which locations are to received includes all of township 25, north, and the biggest portion of waship 25, 18 north, in all about 60 township 25, 13 north, in all about 60 full sections. In many instances the locators have lived upon their sites for several years and the country is quite well settled up. Many will take advantage of the timber and stone act and secure their locations under that clause, believing the property richer for its timber and mineral resources than from agricultural possibilities.

The settlers in many cases have waited for a long time to get permanent papers of ownership under the homestead entry set.

DEPEW HASN'T RESIGNED a Director of the Equitable Life Assurance Society.

New York, July 13 .- Senator Depew has not resigned as a director of the Equitable Life Assurance Society. This announcement was made today by Chairman Paul Morton of the Equitable, when his attention was diected to an interview with the senator in Paris yesterday which was printed here today. Mr. Morton said that just before Senator Depew sailed for Europe a few weeks ago he called at the Equitable offices and told the chairman that he would resign as a director and that he had no objection to his \$20,000 year position as special counsel to the society being cancelled or abolished. No formal presentation of the resignation ever had been made however, and Mr. Morton said he was unprepared to say whether or not it would be accepted if tendered. Senator Depew's connection with the so-ciety as special counsel will terminate on August 1, it having been announced some time ago that the position would be abolished at the end of the present

ALLEGED GRAFT IS INVESTIGATED.

LABORERS TELL THEIR STORY

Foreman Smoot Denies All Connection With Employment Agency-Taken Under Advisement.

An investigation of the alleged employment agency graft in connection with the work on the city's cement sides walk extensions, which was brought to the attention of the city council by Councilman Tuddenham, was had last evening' by the committee on streets, but at the conclusion of the investigation the matter was taken under advisement. It was stated by Councilman Tuddenham that two laborers had informed him that they had applied for work to the Utah Fire Proofing company, which has the contract for constructing the city's sidewalks this year, but were refused unless they would agree to go to Lange's Employment agency and pay a fee of \$1 and then 16 per cent of their first month's wages. The two men, Fred Ruffle and Joseph Appleshaw, were present at the committee meeting and told their story as told to Tuddenham. They said that they applied to a Mr. Renton, who was acting for the Fire Profing company, and were told to go to Lange's agency. When they went there they were asked to sign a contract for the payment of \$1 and 10 per cent of their first month's wages. This they refused to do and consequently were unable to secure employment. They stated that they saw John Morrison, the manager of the employment agency, take a gang of about 30 men over to West Temple street to work on the silewalks.

MORRISON'S DENIAL.

Morrison was interrogated and denied that he had anything to do with employing men for the sidewalk work. He said that he had employed men for the Fire Proofing company to do cement work on the foundation of the new Orpheum theater, but not to work on the sidewalks.

FOREMAN SMOOTS STORY.

Mr. A. O. Smoot, foreman of the sidewalk work for the Utah Fire Profiling company, said that he had employed all of the men working on the sidewalks, with the exception of two Denver men employed by Mr. Owens, the manager of the company, and he had not taken any men sent by the employment agency and had not authorized the agency or anyone else to hire men for him. He said that on one occasion he was greatly in need of men and he went over to the Orpheum building and asked Mr. Renton to let him have four of his men. The four men sent by Renton, it afterwards appeared, were men employed through the agency. Two of the men, Mr. Smoot said, proved to be good work-ers and reside in this city and the company intends to keep them. When the employment contracts were called to his attention he said that he told the men to take them back and he refused to honor them. That was the only connection the company had ever had with the employment business. The committee took the whole matter under advisement at the conclusion of Mr. Smoot's talk.

FOUND DEAD IN BED.

Mrs. Elizabeth B. Stoker Dies Suddenly Of Heart Failure.

Mrs. Elizabeth B. Stoker, wife of Robert Stoker, was found dead in bed shortly after 6 o'clock this morning, at her home, 173 D street. Mrs. Stoker retired home, 173 D street. Mrs. Stoker retired last night in her usual health. About 5 o'clock this morning her daughter spoke to her, at which time she appeared to be all right. An hour later members of the family noticed a peculiar expression on their mother's face, and on going to her bedside to investigate, were startled to find that their loved one had closed her eyes in the sleep of death. A physician was immediately called in and he attributed death to heart trouble, with which the deceased had been afflicted for some time.

Mrs. Stoker was the daughter of William and Jane Browell and was born Aug. 7, 1845 at North Shields, county of Northumberland, England. She had been a resident of this city for a num-ber of years and was highly respected by a wide circle of acquaintances. She leaves 12 children and 15 grandchildren. Little Nine Year-Old Russell Mc-Leese Drowned While Bathing.

SWIMMING WITH COMPANIONS

Body Recovered and Every Possible Effort Made to Resuscitate Him, But in Vain.

The temptations of a deep awimming hole in the Jordan river resulted in the death by drowning of Russell Me-Leese, the nine-year-old son of Mr. and Mrs. Stewart McLeese, yesterday afternoon at 4:30 o'clock. Young McLeese went swimming with a few companions about 3:30 in the afternoon, and although he could not awim a stroke he forsook the shallow water which abounds in the neighborhood for the only hole of any depth to be found. This is a deep hate but not long nor broad, and in trying to swim over it

His body was recovered a few minutes later by searchers who were walking through the water below the pool, and although every effort was made to revive him, a proved to be in vain. The body was taken to the home of the boy's parents at 148 south Second West street.

Just what occurred at the river is not clear, as the stories of those who witnessed the drowning are somewhat confused. The boy had gone with his mother to visit at a home near the river early in the afterneon. While she was talking with her friend he slipped off with a number of boys slightly older, for a rwim in the river, the party including his older brother, Nephl, and his coustn, Gordon Hodges. FIREMEN KEPT BUSY

Home of Officer Seigfus Eadly Damaged -Two Grass Fires.

The fire department had a busy time of it this morning responding to three Blarms.

The first came at 3:38 o'clock from the residence of Police Officer Ben Seigfus, located at 526 Tweifth East street, and the officer's home was badly damaged. It appears that Ben arose very early

for the purpose of starting a fire to heat some water to do the washing before sun up. He accordingly built the fire and then went out to sprinkle the lawly. Suddenly he discovered that the roof of his home was a mass of flames. He rushed into the house and dragged his children and wife to places of safety and turned in an alarm. White the apparatus from No. 4 was dashing to the sceae, Hen and several neighbors were busily engaged in hauling out the furniture.

furniture.

The place was valued at \$2,500, and the contents at \$750. The house was insured for \$1,500, but the contents were not insured. The firemen made a brave light, and succeeded in saving the lower part of the structure. The roof and top floor were burned, but beyond this no damage was done. It is estimated that the damage will amount to at least \$600. The cause of the fire is supposed to have been a defective flue.

About 16 o'clock this morning the department responded to two alarms. from grass fires at 24 west North Tem-ple street. It seems that "Aunt Jane" started a fire which rapidly spread to a neighbor's and the firemen were call-ed upon to extinguish the flames. No damage was done.

STOLE HORSE AND BUGGY.

David Lindsay of Kaysville Charged

With Second Offense. (Special to the "News.") Farmington, Utah, July 13 .- David

Lindsay, the 17-year-old son of J. B. Lindsay of Kaysville, was arrested this morning by Sheriff Ware, charged with stealing a horse and buggy belonging to Ed King of Layton. The young man, it appears, took the rig from the Lagoon at 10 o'clock last night and drove to Kaysville, where he turned the animal loose, as if to make it appear that it had run away. The cirumstances, however, were too transparent to be misunderstood, and the parent to be misunderstood, and the thief was taken into custody this morning. It is probable that the charge will go hard with him as Lindsay was found guilty only a short time ago of burglary in the second degree, but the court suspended sentence pending good behavior. Now he will have this charge to meet, as well as the additional charge of grand largeny.

I little thought, however, at the time, that I would have the privilege of approving the proposition on mayor are ten."
